

Food Allergen + Sensitivities Chart

All menu items include allergen and sensitivity information for the items listed on the menu only. If the menu item includes a guest choice (i.e. salad dressing, cheese), this is not included in the allergen information for that item. Please consult the ingredients of each individual product prior to consuming.

*According to the FDA, highly refined oils such as highly refined soybean and peanut oil are not considered major food allergens, we have listed these ingredients here for your knowledge.

*The FDA does not require manufacturers to identify MSG in processed foods and MSG occurs naturally in most foods, therefore, this list does not include every food item that could contain MSG.

*Due to the variety of ingredients and manufacturing processes each vendor uses, it is the obligation of the restaurant manager and franchisee to carefully inspect each label.

Allergens Considered	Sensitivities Considered
• Eggs	• Bulbs / Onions
• Fish	• Garlic
• Milk	• MSG
• Peanuts	• Sulfites
• Shellfish	
• Soy
